DIRECTIONS: Solve the word problem.

1) Jeremy has a rope 35 cm long. He cuts it into 5 equal pieces. How long is each piece?

2) Marianne was given 6 strips of paper each 5 cm long. She placed them in a row to form a long strip. What is the length of the long strip she made?

3) Mrs. Nunez made some curtains. She used 4 m of fabric for each curtain panel. How many curtain panels can she make with 36 m of fabric?

4) Every morning, Mr. Samson brings his potted plants out in the garden then goes back to his house. In the afternoon, he goes out to the garden then brings the potted plants back to the house. The path to the garden is 10 m long. How far does Mr. Samson walk the path everyday?
