**Directions:** Read each word problem carefully. Write the equation. Solve and label your answer.

1. Luis had 56 Hotwheel cars. 3/9 had a black body with green stripe, and 5/9 had a green body with black stripe and the rest had a black body with red stripe. If Luis gave all the cars with the black body and red stripe to his brother Diego, how many cars did he give Diego?

2. Diego had 42 marbles for his B-Daman. 4/7 marbles were silver with a green eye, 1/7 were green with a silver eye. The rest were blue with a silver eye. How many marbles were blue with a silver eye?

3. Diego had 16 dinosaur toys and Luis had 28 jungle animal toys. They mixed everything in their toy box. If they needed to put 6/8 of the animals in a bag, how many animals are left in the toy box?
