Topic: Math – Properties of Addition

Contributor : RFAquino

Directions: Solve the equations mentally by applying the properties of addition. Write your answer on the blank.

1) PhP 75.00 + PhP 25.00 + PhP 40.00 = PhP 140.00

2) PhP 35.00 + PhP 30.00 + PhP 5.00 = PhP 70.00

3) PhP 150.00 + PhP 15.00 + PhP 10.00 = PhP 175.00

4) PhP 300.00 + PhP 225.00 + PhP 175.00 = PhP 700.00

5) PhP 6.50 + PhP 1.50 + PhP 2.00 = PhP 10.00

6) 12 000 + 1 500 + 500 = 14 000

7) 750 + 250 + 10 000 = 11 000

8) 15 000 + 10 000 + 5 000 = 30 000

Directions: Solve the word problem.

Matthew bought three toys. the toy train costs PhP 240.00. The toy sword costs PhP 115.00. The video game cartridge costs PhP 525.00. How much did the three toys cost in all?

$$240.00 + 115.00 + 525.00 = \text{PhP } 880.00$$

Three toys cost PhP 880.00
