

Name : \_\_\_\_\_

Topic: Math – Division: Finding the Number of Items in each group

DIRECTIONS: Write the two division sentences based on the multiplication sentence.

a) $7 \times 5 = 35$ $35 \div \underline{\quad} = \underline{\quad}$ $35 \div \underline{\quad} = \underline{\quad}$	b) $8 \times 7 = 56$ $56 \div \underline{\quad} = \underline{\quad}$ $56 \div \underline{\quad} = \underline{\quad}$
a) $9 \times 6 = 54$ $54 \div \underline{\quad} = \underline{\quad}$ $54 \div \underline{\quad} = \underline{\quad}$	b) $3 \times 9 = 27$ $27 \div \underline{\quad} = \underline{\quad}$ $27 \div \underline{\quad} = \underline{\quad}$

DIRECTIONS: Complete the multiplication and division sentences.

a) $8 \times \underline{\quad} = 40$ So, $40 \div 8 = \underline{\quad}$	b) $5 \times \underline{\quad} = 30$ So, $30 \div 5 = \underline{\quad}$
c) $7 \times \underline{\quad} = 42$ So, $42 \div 7 = \underline{\quad}$	d) $6 \times \underline{\quad} = 18$ So, $18 \div 6 = \underline{\quad}$

DIRECTIONS: Solve the word problems.

- a) A sack of rice weighs 25kgs. If Ben repacked the rice in 5kg bags, how many bags will Ben have?

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

Ben will have \_\_\_\_\_ bags of rice.

- b) Martin hung 63 lanterns on 7 trees. If each tree can hold the same number of lanterns, how many lanterns were hung on each tree?

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

There were \_\_\_\_\_ lanterns on each tree.
