DIRECTIONS: Read each problem. Use a model if needed. Label and encircle your final answer

1) The scooter travelled 3 264 meters in 8 minutes. How many meters did it travel in one minute?

2) Amy and Sarah shared a taxi ride. Amy paid thrice the amount that Sarah paid. If the total fare is Php 660, how much did Sarah pay?

3) Jimmy bought a shirt and a jacket. The jacket costs 6 times the shirt. He gave Php 4 000 and received Php 150 in change. How much was the jacket?
