DIRECTIONS: Read and solve each problem.

1. A kilogram of mangoes costs Php88.75. How much does Helen have to pay for two kilograms of mangoes?

2. A roll of tape is 45.60 meters long. If Cindy used up 17.25 meters, how many meters of tape was left?

3. For the next three days, the books are sold at Php12.50 off while DVDs are sold at a discount of PhP63.75. If I buy one book and one DVD during the sale, how much will I save?

4. A basket of grapes weigh 4.83 kg. Another basket of grapes weigh 3.76 kg more than the first basket. If all the grapes from the two baskets were combined into one big basket, how much would all the grapes weigh?
