

Name : _____

Topic: Reading – Interpreting Bar and Line Graphs

Directions: Study the line graph and answers the questions.

Number of Playground Injuries

- _____ 1. What does the line graph show over the months of June to October?
- _____ 2. In what month did the playground have the most number of injuries?
- _____ 3. How many injuries occurred in the month of September?
- _____ 4. How many more injuries occurred in July than in August?
- _____ 5. What is the latest number of injuries recorded in this line graph?
- _____ 6. Does the scale on the graph count by 2s, 5s or 10s?
- _____ 7. Based on the line graph, is the number of injuries increasing or decreasing?
- _____ 8. Would it be correct to say that this graph is showing a good sign that there are less people getting hurt at the playground?
