DIRECTIONS: Solve each word problem. Draw models or tables to help you solve it.

A) The parking fee at the Ayala mall is Php30 for the first hour and Php10 for the succeeding hour. If I park there from 9:30am to 4:30pm on the same day, how much will I have to pay?

B) Ten years ago, Ben's mom was 4 times older than him. His mom was 27 years older than him. How old is Ben now?

C) Jacob bought 6 notepads and 8 pens for Php350. Gabriel bought two notepads and two pens for Php100. Find the cost of each notepads.
