DIRECTIONS: Solve each word problem. Use a model if necessary.

1. Jed bought 7.60 kg of flour. He used .60 kg of flour for each loaf of bread. He made 12 loaves of bread. How much flour was left?

2. Bryan bought 20 notebooks and some notepad. He paid Php245 for the notebooks. Each notebook cost 5 times as much as a notepad. What is the cost of each notepad?

3. Sandra used 2 kg of flour and 5 kg of sugar to make a wreath. The cost of flour was three times the cost of sugar. The total cost of the flour and sugar was Php290.40 . Find the cost of one kg of flour.
