Topic: Math – Finding Unknown Angles - Quadrilaterals

DIRECTIONS: Find the missing angles. Figures are not drawn to scale.

1. ABCD is a rhombus.

$\angle ACD =$ _____

$\angle CDB =$ _____

$\angle DBA =$ _____

2. LMNO is a trapezium.

$\angle LON =$ _____

$\angle LMN =$ _____

3. HIJK is a parallelogram.

$\angle IHK =$ _____

$\angle HKJ =$ _____

$\angle IJK =$ _____

5. STUV is a trapezium.

$\angle TUV =$ _____

$\angle SVU =$ _____

5. AEDC is a trapezium. ABDC is a rhombus.

$\angle BDC =$ _____

$\angle EBD =$ _____

$\angle BAC =$ _____

$\angle ACD =$ _____

$\angle BED =$ _____
