Contributor: ALFA

Directions: Solve each word problem below.

1. Elliot bought three sandwiches worth P50.25 each, a cone ice cream worth P15, and a cup of iced tea worth P25.50. If Elliot gave the cashier P200, how much change did he receive?

2. Alden has P1,500. If he buys himself three P349.99 shirts and his friend a P399.75 dress, how much will he have left?

3. Joyce buys 240 pens at P9.99 per piece. How much will she profit in total if she sells all of them at P15 each?

4. Dianne wants to buy 372.1 square meters of land at P825.50 per square meter. How much will her change be if she pays P310,000?
