

Name : _____

Topic: Science – Scientific Method

Directions: Write down the steps in the Scientific Method in its exact order.

Step 1 : _____

Step 2 : _____

Step 3 : _____

Step 4 : _____

Step 5 : _____

Directions: Encircle the letter of the correct answer.

1. It is usually in the form of a question which tells us what we are trying to find out.

- A. Hypothesis B. Problem C. Experiment

2. The final answer to the problem, after having done the experiment and getting the results.

- A. Conclusion B. Findings C. Hypothesis

3. It is a possible answer to the problem. However, this answer is only temporary until an experiment is done and the possible answer is verified.

- A. Experiment B. Hypothesis C. Conclusion

4. It is the step that gives a set of directions to test if the hypothesis is correct or not.

- A. Findings B. Problem C. Experiment

5. These are the results of the experiment. We study and analyze these results before we state our conclusion.

- A. Problem B. Experiment C. Findings
